SALT LAKE ROUTE

The Best East?

opinions vary. Of the new short line a to Salt Lake City,

ute

patronage it is receiving is a good indication, our traveling friends also think so. Through a picturesque scenic country the line runs, and the dustless oiled roadbed contributes much to comfortable traveling. Two finely equipped trains are run: The Overland, with through sleeping cars to Chicago and St. Louis, and the palatial

Los Angeles Limited

The latter a solid train through to Chicago via Salt Lake City, Union Pacific and Northwestern Lines. Electric lights, steam heat and Pullman's finest equipment are features of this de luxe train. The a-la-carte dining car service of both trains is of peerless quality.

When you are considering an eastern trip, a call to any Salt Lake Route agent will surely result to your advantage.

Introductory

We present herewith our third volume of the Riverside Directory.

The same careful attention to accuracy and detail that has caused our two former volumes to be received with favor and approval is shown in the present work.

The Riverside Directory will be found in the Directory Libraries of all the principal cities of the United States and Canada, and several European and Oriental cities.

No work of any character shows the life and business of a community in so comprehensive a manner as the City Directory.

There is no better advertising medium than a City Directory; Directory advertising reaches the public; every minute of the day someone sees it. The live business houses of Riverside appreciate this fact, and we desire in this connection to thank them for their liberal patronage.

Population. The census of Riverside completed by us Dec. 15th shows **13,180** actual residents, an increase over last year of 885, as our last census gave only 12,295.

The people of Riverside have reason to be proud of their city's continued growth and prosperity. We extend our thanks to the public for the assistance given and the courtesy shown us in gathering the detailed information for this work.

HOUSE NUMBERING.

Houses are numbered, in the central portion of the city, from Olive and Colton av on the east, and from 1st on the north. On all streets there are 100 numbers to the block.

All streets running east from Olive and Colton av are numbered from this dividing line, and are known as East 1st, East 2d, etc. Those running west are known as 1st, 2d, 3d, etc., without the prefix.

North of 1st, streets are known by the prefix.

Palm av is the dividing line for all streets south of Jurupa av to Arlington av, houses being numbered east and west from this line.

From Arlington av west to the city limits the dividing line is Magnolia av, streets running north and south, and known as such, being numbered from that line. Streets running east and west parallel to Magnolia av in this section of the city begin numbering at Arlington av.
